

PADEASY™ LINE OF PNEUMATIC PAD PRINTERS

90mm & 135mm Closed Ink Cup Systems

Single or Multi Color Auto Closed Ink Cup Systems.

**Linear rail, Rotary index, Conveyor Systems.
Full automation and more. Turnkey applications.
Full factory training or on site.**

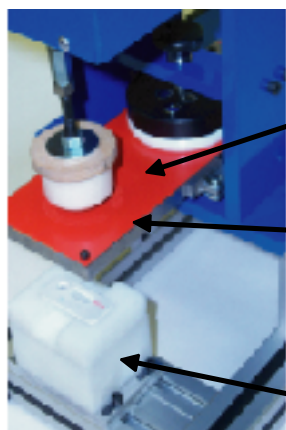

Full Pneumatic System. Uses no electricity!

**Models come either single cycle or with auto cycle capabilities.
No need for computer controls to set stroke and depth.
PADEASY adjusts automatically. Just adjust pressure for the
printing pad and start printing.
Change printing pads in less then 10 seconds.
Set up in less then 60 seconds for next run.**

NO SIZE LIMIT ON PART TO BE IMPRINTED.

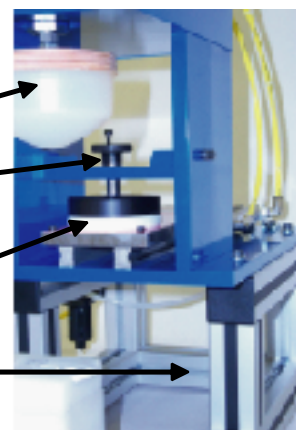

Aluminum structural framing System.

**Our unique open frame system can accommodate any size part to be
imprinted.
We can increase the size of the frame to fit any part from large panels
to oil drums. No part is to big or too small for our framing system to
handle.**
