

FOR USE WITH  
**RICOH**

# SubliJet® R

Specially formulated for the Ricoh System

Sawgrass Technologies is committed to offering comprehensive solutions for sublimation printing. We've compiled this convenient printer comparison checklist to help you select the technology solution that is right for you.

Each system represents a unique offering which is ideal for certain operating situations. Consider your print size requirements, your color accuracy demands, and your budget to select the right system. For more information, please contact us at [info@sawgrassink.com](mailto:info@sawgrassink.com), or call 866.290.3812. Our team of sublimation experts can tell you how SubliJet R can benefit your business.

## Features of SubliJet R Sublimation Systems

SubliJet R inks create vibrant, permanent images on a wide variety of substrates.

The Ricoh GX7000 along with SubliJet R inks offer both speed and vibrant colors allowing you to maximize your business' potential and profits.

PowerDriver®, Sawgrass' award winning and user-friendly color management software, is FREE with all SubliJet R systems, allowing users to easily manage output for high-quality prints – time after time.

SubliJet offers users peace of mind through Sawgrass Technologies' PartnerPlus Support Program.

Our expert-level technical support team can help you through even your toughest imaging challenges.
