The ACCUFAST CS3

The ACCUFAST CS3 Conveyor

The ACCUFAST CS3 is a versatile conveyor system (Conveyor System, 3 feet) that can be used on a table top or as a free standing unit either straight on or at right angles. It can operate as an input or an output device. It most commonly appears at the output end of an ACCUFAST address printer such as the P3 where it conveys wet or damp addressed envelopes from the printer allowing them to dry prior to stacking in a drop down basket.

The CS3 has a single belt to make it easy to handle pieces fed with their short edges first.

ACCUFAST CS3

Table Top Model

- weighs 51 pounds
- measures 38"l X 13"w x 5"h; transport length is 38"
- uses 115 volts 2 amps 60hz or 230 volts 1 amp 50 hz
- adjustable speeds from 0 - 150 fpm
- mail pieces drop into a catch basket
- no limit to mail piece length; up to 12" mail piece width
- tabletop model, recommended for use with address printers, tabbers and labelers
- optional bump and turn kit and weight wheel assemblies are available
- bump and turn option allows mail pieces to be turned 90 degrees for feeding from tabber into printer

Floor Model

- weighs 75 pounds
- measures 38"l X 13"w x adjustable"h; transport length is 38"
- uses 115 volts 2 amps 60hz or 230 volts 1 amp 50 hz
- adjustable speeds from 0 - 150 fpm
- mail pieces drop into a catch basket
- no limit to mail piece length; up to 12" mail piece width
- floor model, recommended for use with address printers, tabbers and labelers
- optional bump and turn kit and weight wheel assemblies are available
- bump and turn option allows mail pieces to be turned 90 degrees for feeding from tabber into printer
