Product Information Sheet

Overview

CorelDRAW® Graphics Suite X5 offers an all-in-one solution for illustration, layout, tracing, photo editing, Web graphics and animation. Designed for professional and aspiring designers alike, CorelDRAW Graphics Suite is used to create many of the things you see around you every day—from distinctive logos and signs, to Web graphics and animations, billboards, car wraps and more.

The quick, intuitive workflow, accurate color control and powerful design tools help you turn creative ideas into professional results. Start smoothly, learn quickly and create with confidence with built-in learning tools, high-value content and compelling video tutorials. Now, you really can do more than you thought possible!

Target Segments

- **Graphics professionals** in the advertising and printing industries who spend much of their time creating and editing graphics, working with text, and retouching photos.
- **Production-oriented graphics professionals** whose primary graphics use is for sign making, screen printing, and engraving.
- **Graphics non-professionals** who use graphics software to create their own marketing materials.
- **Marketing departments** in small-to-medium businesses or enterprise environments that create brochures, print ads, newsletters and other marketing collateral.
- **Students and teachers** at home or school looking for creative ways to incorporate graphics into their curriculum and turn their ideas into outstanding results, from presentations and posters to banners and reports.

Competitive Advantages

CorelDRAW Graphics Suite X5 offers design professionals and business users alike the most complete and easy-to-use professional graphics solution on the market.

- Contains hundreds of dollars of valuable content, including 10,000 clipart images, 1,000 high-quality, royalty-free photos, 1,000 professional fonts, 2,000 vehicle templates and 350 professional design templates, all saving you time and money when it comes to enhancing your designs.

Key Features and Benefits

More efficient content management

Speed up your workflow with a new built-in content organizer

Corel® CONNECT helps you find graphics, templates, fonts and images quickly on your computer. Save valuable time by instantly accessing your selected content, which is stored in the tray synchronized between CorelDRAW® and Corel® PHOTO-PAINT™.

Enrich your designs with high-value digital content

Create more impactful designs with over 1,000 professional fonts, including the Helvetica® and Frutiger® fonts, new to CorelDRAW. Meanwhile, enhanced clipart, royalty-free photos and enhanced vehicle templates boost creativity. Give your work a professional finish without spending extra time and money—you'll find everything you need here!

More confidence in your creations

Create eye-catching Web graphics with efficient new Web tools

Design Web graphics more effectively than ever with a new Pixels mode that lets you preview how content will display online. Plus, a new integrated Web animation tool lets you open and animate graphics and designs created in CorelDRAW. Optimize your settings to achieve the highest graphics quality with a new Export for Web Dialog box.

Boost your creativity and productivity with enhanced drawing tools

Benefit from new features that include the option to lock toolbars in place, more printing options, and improvements to the Eyedropper, Mesh Fill and other popular tools. Plus, the enhanced Corel PHOTO-PAINT lets you get more creative with exciting photo effects, such as Vibrance, Grayscale and Photo Filter.

More learning tools for design growth

Increase your design knowledge with engaging learning materials

Start smoothly and learn quickly with new and updated video tutorials, built-in tool tips and a visually rich, online guidebook that contains new articles from experts. The box version comes with a hard cover, full-color, printed guidebook.

More ways to share your designs

Control color consistency with a powerful new color management engine

Match the colors you see on screen across printed materials and Web graphics. A new color management engine enhances color consistency across all media and introduces support for new color profiles from PANTONE®. Minimize your ecological footprint and reduce costly reprints by knowing that your colors are accurate before you print.

Eliminate any barriers to file sharing with market-leading file compatibility

Import and export files quickly and easily with dozens of supported file formats, including PDF, JPG, PNG, EPS, AI, TIFF, PSD, DOCX and many more. With over 100 supported file formats, CorelDRAW Graphics Suite X5 is one of the most compatible professional suites on the market.

More speed and efficiency

Complete your tasks faster than ever with powerful performance enhancements

Maximize your computer's power with new multi-core processing that makes your tools more responsive than ever. Plus, take advantage of newly integrated Microsoft® Visual Studio® for Applications (VSTA) technology, which offers more options for automating time-consuming tasks, as well as add-in solutions that enhance the existing functionality of CorelDRAW.

Work in the latest Windows environment with optimization for Microsoft® Windows® 7

Enjoy a hands-on experience with new touch-screen support for Windows® 7 that lets you pan, zoom and scroll with your fingertips. This latest version is optimized for Windows® 7, and also supports Windows Vista® and Windows® XP.
